COMPANY PROFILE

Nightowl Security

Welcome to the future of security for your business...

Our aim has always been to provide our clients with cost effective security solutions based on their specific needs.

NIGHTOWL SERVICES

C.C.T.V. Systems

Nightowl Security chooses the best from a variety of equipment enabling you to monitor your premises, providing your staff with a safer working environment and you with peace of mind.

Till Fraud Detection

We offer Point of sale monitoring linked to CCTV systems providing powerful tools to help eliminate fraud. We also conduct monitoring and interviewing of staff to help address losses caused by customer theft and staff fraud.

Intruder Alarms

Peace of mind comes from having a good alarm system installed up to current industry standards. Our experienced service engineers are on call 24 hours a day to speedily handle any fault or problem. Nightowl Security's Consultants are experienced in designing intruder alarms, which will give the right balance between early detection, adequate coverage and realistic cost.

Access Control

Nightowl Security can help you reduce the risk of loss of stock and personal possessions and increase the safety of staff by restricting access to specific areas of your premises. Access Control systems provide a range of technical solutions enabling the free flow of authorised people whilst keeping out trespassers and opportunistic thieves.

Digital recording

Nightowl Security can provide the latest technology in Digital Video Recording at a cost to suit all budgets. We can select the best Digital Video Recorder (DVR) to suit your requirements and keep your system up-to-date with the latest advances in CCTV technology.

Monitoring and Interviewing

Nightowl Security provides expertise in the interviewing of perpetrators of dishonest or untoward acts. We also offer a comprehensive tailored monitoring package protecting the retailer from the threat of dishonest acts at the point of sale.
